The average American generates 4.38 pounds of trash per day, [according to the U.S. Environmental Protection Agency](#). Only about 34 percent of that waste gets recycled or composted.

A DAY WITHOUT WASTE

WANTED: CITIZENS OF CHANGE

COMMIT TO TAKE PART IN A DAY WITHOUT WASTE ON APRIL 9TH.

Donate

One person's trash is another person's treasure. Instead of discarding unwanted appliances, tools, or clothes, try selling or donating them. Not only will you be reducing waste, you'll be helping others. Local churches, community centers, thrift stores, schools, and nonprofit organizations may accept a variety of donated items, including used books, working electronics, and unneeded furniture.

Classes and Tutorials

Upcycling the dog feed bags make a great Tote!

I designed and made this tote for a customer who has Golden Retrievers, she is using the tote for her grooming equipment and supplies when she goes to the dog shows.

I made the tote 17" tall, 15" wide, 6" deep, with a velcro type closure.

I designed it in collaboration with the customer with one outside end pockets and one outside back pocket, also one inside pocket. The lining is plain white feed bag material.

The handles are made from a textile strap covered with matching feed bag material.
