

Maggie's Corner is about learning to live a more sustainable lifestyle. We are about sharing information with the public to bring together like minded folks who enjoy sustainable living ideas, crafting, sewing, recycling, and re-purposing. We also offer classes, patterns and materials. Some classes are free for non-profit purposes.

 Donation Line, 850-332-6747

Maggie's Corner is trying to raise awareness of the millions of bags that are not being recycled, are going into landfills, and they are there for 100's to 1000's of years. Maggie's Corner hopes to encourage an American Entrepreneur to develop an America market to utilize all this raw material that is now being thrown away. **Most feed bags and grain bags are rated as 4 LDPE, 4 PE-LD, or 5 PP**

According to <http://www.all-recycling-facts.com/recycling-codes.html>

PE-LD

LDPE

Type 4 Plastic -- Low Density Polyethylene (LDPE)

Recycled LDPE plastic can be made into garbage can liners, floor tile, film and sheet, bins, landscape timber and lumber.

PP

Type 5 Plastic -- Polypropylene (PP)

Recycled PP plastic can be made into brooms, rakes, brushes, signal lights, ice scrapers, and trays.

Patterns and material now available for the customers who want to make their own items. See in our Etsy store in our Pattern and Material Section. Maggie records in pictures the making of the items that she designs and creates. These pictures are then incorporated into a tutorial of step by step how-to instructions.

See the *Pattern and Material Sections* in our Etsy Store.
