Good News for Conscientious Recyclers

We utilize reclaimed material such as the plastic-foil laminated bags, and other plastics that are not accepted at local recycling facilities.

Did you know that plastic-foil laminated bag packaging, such as coffee, dried fruit, pet treats, and many other commodities come to market in, are thrown in the garbage, and are taking up space in landfills unnecessarily? Sources vary as to how long it takes these materials to biodegrade depending on the burial conditions; however most authorities state between 100 and 1000 years.

We provide free weekly pickup of specific non-traditional recyclables to a limited area in and surrounding Pensacola, Florida.

If you would like to participate in our recycling program for any of the following, plastic-laminated bags such as coffee bags, plastic woven bags, such as pet food bags, and other materials listed at the end of this article, we can place a recycle container at your store and we will pick up the recyclables once a week. Our current route consists of Navarre, Gulf Breeze, Pensacola, Pace, and Milton. Pickup is on Monday. The following Starbucks stores have the large recycle bin that encourages guests to bring in their coffee bags for recycle, Gulf Breeze, Brent Lane outside Cordova Mall, and Pine Forest at 9 mile Road.

Thank you all participating Starbucks Stores!
